FOR RENT: DIGITAL SOFTWARE

With the publication of this Software Catalogue we are introducing: Software Rental.

As from today you can rent all Digital software for any desired period - a week, a month, 6 months - whatever you like. If necessary we will take care of on-site installation or we will send you the tape within 1-2 days. It goes without saying that you rent the software along with the software support of the Digital Equipment support services.

Try & Buy

If you want to try out software extensively hire is the best solution. You can test the software in your own organization, if necessary together with the hardware, absolutely without obligation.

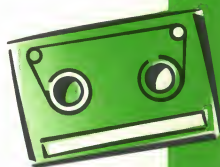

Projects

For projects of limited duration, such as conversion operations, you need certain software only temporarily. In such situations Software Rental is the answer. Thus you can rent for the development period a total development environment complete with workstations.

Budget

You want to start immediately but have no budget available at present. By renting software you can begin at once with no delays to your schedule.

TE HUUR: DIGITAL SOFTWARE

Met de verschijning van deze Software Catalogus introduceren wij: Softwareverhuur.

Vanaf nu kunt u alle Digital Software huren voor iedere willekeurige periode, een week, een maand, 6 maanden, wat u maar wilt. Zonodig zorgen wij voor installatie 'on site' of zenden wij u de installatie-tape binnen 1 à 2 dagen toe. Uiteraard huurt u de software inclusief software ondersteuning door de software-support organisatie van Digital Equipment.

Try & Buy

Wanneer u software uitgebreid wilt testen, is huren voor u dé oplossing. Zonder enige verplichting kunt u de software, eventueel inclusief hardware, binnen uw eigen organisatie testen.

Projekten

Voor projecten van beperkte duur, bijvoorbeeld conversieprojecten, heeft u bepaalde software maar tijdelijk nodig. In zulke situaties is Softwareverhuur een uitkomst. Zo kunt u een complete ontwikkelomgeving met b.v. workstations in zijn geheel huren tijdens de ontwikkelperiode.

Budget

U wilt direkt aan de slag, maar u heeft momenteel geen budget ter beschikking. Door het huren van software kunt u meteen beginnen en loopt uw planning geen vertraging op.
